

Lisa Catherine Kerr

Illustrator

Profile:

"I illustrate for myself and my clients, so that we both can share the love for illustration, making stories and much more!"

My passion lies in illustration, and I like to dabble in Graphic Design, too. My skills specialise in the Adobe suite using programs such as Photoshop, Illustrator, Muse, and Dream Weaver. What excites me the most is having the ability to make characters come to life with just a stroke of my brush.

I believe I would be a valuable member to your company, as I have a wide range of skills; this can be seen by returning to my website and blog. I meet deadlines and targets by the appropriate time and can be trusted to complete the task(s). I am independent and I am happy enough to work on my own or in a group.

Education:

University of Cumbria; BA (hons) Illustration & Graphic Design

Carlisle College; Access to HE Art and Design

Interests:

My hobbies include gaming, photography, reading, DIY arts and crafts and sewing, all the typical stuff people enjoy. I love zombie movies and games. I also enjoy martial arts; I have practised Karate for about 7 years, having gotten many medals over the years including silver and gold from competitions. I achieved a high belt - purple.

I would say my unique selling point is the facts that I'm a crazy cat lady. I even wear clothes that has some form of cats on it.

In another world I see myself playing my Flute, calling all the cats, something like the Rat Catcher of Hamelin!

Work:

Multi-Media Graphic Designer at Enesco, Ltd.
1st Dec 16 - 31st July 17.

I have worked on small commissions through certain websites.
